Wednesday March 8th @ 7:30

At Our Next ZOOM Meeting

Craig Rodwell

Will share his visit to

Craig, a resident of North Bay, owns a 'one-off' *Grant Clark Austin Healey 3000*. During the 60s heyday of sportscar racing in North America, he successfully campaigned the Healey and a Mini Cooper S.

On a trip to Victoria Australia, Craig had the opportunity to visit and tour The Healey Factory which specializes in Healeys as well as other classic British sports cars. They offer mechanical and restoration services as well as spare parts and accident repairs. They also have an impressive showroom full of classic British cars for sale, as seen in the photo above.

At our meeting, Craig will present a photo essay of his tour and share his insights and impressions on this significant enterprise on the other side of the world.

Join us for a casual and entertaining discussion, and as always, bring your questions and stories.

See you there!
